Work Experience

Independent Farm Owner, Reddick, FL

OWNER AND RANCH MANAGER (December 2015 – Present)

Parelli Natural Horsemanship, Ocala, FL; Pagosa Springs, CO

The largest natural horsemanship education and training center in the world with over \$20 MM in revenue. The facility and educational centers, located on 200 acres in Ocala, FL and 600 acres in Pagosa Springs, CO, enjoy over 1000 visitors and 200 horses each season. The ranch manager is responsible for all aspects of managing these ranches and ensuring visitors have a positive experience.

FLORIDA RANCH MANAGER (April 2012 – November 2015)

RANCH MANAGER (May 2010 – October 2010)

RANCH FOREMAN (Jan. 2010 – May 2010)

RANCH HAND/HORSE HEALTH (October 2004 – March 2007)

- Oversight of 600 acre facilities including visitor preparedness, IT and media support, vehicle and equipment maintenance, building maintenance including offices, education centers, barns, student dormitories, shops, and livestock facilities
- Rehabilitation of training facility and education center, including critical oversight for the construction of \$500,000 in new facilities
- Research, analysis, and advocacy for most cost effective and operationally effective processes and facilities management, including representative on the management Leadership Team.
- Direct leadership and supervision of 12 person staff
- Planned, supervised, and executed the logistics for the Parelli Organization to attend the 2010 World Equestrian games in Lexington KY which overlapped with the move of the ranch from CO to FL; logistics included a total of 98 000 miles for all vehicles involved, relocation of over 50 people and 20 vehicles

Cleveland Armory Black Beauty Ranch, Murchison, TX

A 1,200-acre animal sanctuary, the largest in the U.S owned and operated by the Humane Society

EQUINE SPECIALIST & RANCH FOREMAN (November 2010 – March 2012)

- Led the build out of a \$1 MM, 30 acre, 50 animal equine rescue facility; developed land and existing structures into an efficient and productive rehabilitation and training center
- Supervised building and facilities construction, design of the grounds, selection of equipment, development and management of equine training and adoption processes, and training of trainers and volunteers for the state of the art equine rescue, "Doris Day Horses Rescue and Adoption Center"
- Expert on purchase and usage of equipment and optimal facilities management
- Supported the growth and management of volunteers to help train the horses
- Worked directly with Veterinarian to provide trainer's point of view
